# Private Land Conservation and CARTS: Proposed Database to CARTS Crosswalk

Guy Greenaway

August 2018

*This work was made possible through a grant from Alberta Environment and Parks.*

*Miistakis is deeply appreciative of this support, as well as the respectful autonomy afforded to us by AEP that allowed us to pursue this analysis as an independent research institute.*

## **Private Land Conservation and CARTS:**

### **Proposed Database to CARTS Crosswalk**

Prepared by Guy Greenaway  
November 2018

**All Conservation Areas****Existing CARTS Field**

<b>Identifiers</b>	
Name of conservation area	<ul style="list-style-type: none"> <li>Name of parent protected areas</li> </ul>
Unique identifier number	<ul style="list-style-type: none"> <li>Parent protected area identification number</li> <li>Nationally unique protected area zone identification number</li> <li>Jurisdictional internal protected area zone identification number/name</li> </ul>

<b>Zonation</b>	
Sub-zone of conservation area	<ul style="list-style-type: none"> <li></li> </ul>
Sub-zone name	<ul style="list-style-type: none"> <li>Jurisdictional internal protected area zone identification number/name</li> <li></li> </ul>
Sub-zone description	<ul style="list-style-type: none"> <li>Zone description</li> </ul>

<b>Location and Size</b>	
Location, Spatially explicit	<ul style="list-style-type: none"> <li>Official size of zone in hectares</li> </ul>
Province/Territory	<ul style="list-style-type: none"> <li></li> </ul>
Municipality	<ul style="list-style-type: none"> <li></li> </ul>
Area	<ul style="list-style-type: none"> <li></li> </ul>

<b>Ecological</b>	
Ecosystem – Type	<ul style="list-style-type: none"> <li>Ecosystem Type</li> </ul>
Ecodistrict	<ul style="list-style-type: none"> <li></li> </ul>
Biodiversity conservation contribution	<ul style="list-style-type: none"> <li></li> </ul>

<b>Agency and Ownership</b>	
Conservation agency	<ul style="list-style-type: none"> <li>Managing jurisdiction of zone</li> </ul>
Conservation agency type	<ul style="list-style-type: none"> <li>Management regime</li> </ul>
Property owner of conservation area	<ul style="list-style-type: none"> <li>Property owner of zone</li> </ul>
Land owner type	<ul style="list-style-type: none"> <li></li> </ul>

<b>Protection and Management</b>	
Conservation area type	<ul style="list-style-type: none"> <li></li> </ul>
Protective measures	<ul style="list-style-type: none"> <li></li> </ul>
Effective management regime	<ul style="list-style-type: none"> <li></li> </ul>

<b>Data Management</b>	
Date of effect	<ul style="list-style-type: none"> <li>Protection Date of zone</li> </ul>
Data provider	<ul style="list-style-type: none"> <li></li> </ul>

Date of most recent data update	•
Delisted	•
Date of CARTS delisting	• Delisted Date of zone

<b>Other</b>	
Sub-surface right status	• Sub-surface right status
Screening Report	•
General comments about conservation area	• General Comments about zone • Internet link for zone, Parent protected area, or any other URL

<b>Sub Field – Publicly Protected Areas</b>	<b>Existing CARTS Field</b>
Type of publicly protected area	• Type of protected area zone
Managing jurisdiction of area	•
IUCN Category for area	• IUCN Category for zone
Legal status of conservation area	• Legal status of zone
Enabling legislation for zone	• Enabling legislation for zone
Property owner of conservation area	• Property owner of zone

<b>Sub Field – Privately Protected Areas</b>	<b>Existing CARTS Field</b>
Type of privately protected area	• Type of protected area zone
IUCN Category for area	• IUCN Category for zone
Public access	•
Property owner of conservation area	• Property owner of zone

<b>Sub-Field - OECMs</b>	<b>Existing CARTS Field</b>
OECM category	• Other Effective Area- Based Conservation Measures Categories
Management intent	•
Public access	•

## Not included

- AICHI Target 11/1 area
  - CARTS should not be designed around Target 11/1 – it will exist beyond 2020
  - Should assume that CARTS is only looking to collect information on areas that satisfy Target 11/1
  - Screening should take care of this
  - Could have a field of “Screening status”
    - Successful
    - Pending
    - Unsuccessful
