I'M A CALGARIAN

I ALSO BRAVE COLD CALGARY WINTERS!

Wood frogs freeze solid all winter, then thaw in spring like it was no big deal. Give amphibians a warm welcome back by keeping wetlands clean.

WOOD FROG

I MAY BE LOUD, BUT I'M A SENSITIVE TYPE. Stormwater brings the city to my doorstep. Please be mindful of pesticides and other pollutants and pick up pet waste to keep me healthy and happy.

I NEED MORE THAN WATER. Nearby upland habitat is just as important for my survival as my wetland. Protect the spaces that connect them.

IF I'M AROUND, IT'S A GOOD SIGN THE WETLAND IS HEALTHY. Like you, I enjoy a clean home, and so do all the other critters I share it with. We all thank you for keeping it nice and healthy!
